YurCore Learning - Change Log

Files created, edited and deleted while building the Learning module upgrade (credits, targets, feedback, certificates, emails, ratings, recommendations and the premium UI redesign). Prepared 28 October 2026. Nothing has been committed, pushed or deployed.

Created	49	**Edited**	27	**Deleted**	0

Source: there is no git repository, so this split comes from the session's own edit record rather than version control.

Created — 49 files

Database migrations

`supabase/migrations/20261028000000_learning_credits_certificates.sql`	Categories, credits, course feedback, targets, certificates, append-only credit ledger, email delivery log (applied)
`supabase/migrations/20261029000000_learning_course_ratings.sql`	Course rating aggregate function (not yet applied; the app counts ratings itself until it is)

Backend

`src/backend/repo/learning-profile.repo.ts`	Data access: categories, interests, targets, feedback, certificates, ledger, deliveries, rating counts
`src/backend/service/learning-profile.service.ts`	Learning Setup, target, credits and CSV/PDF export, certificates, recommendations
`src/backend/service/learning-credentials.service.ts`	Credit-year maths, certificate PDF + QR, PDF check before email attachment
`src/backend/service/learning-notify.service.ts`	New-course, completion (with PDF attachment), reminder and target-met emails + in-app alerts
`src/backend/service/learning-admin-credentials.service.ts`	Admin categories, settings, revoke/reissue, credit adjustments, deliveries

API routes - learner (src/app/api/learning/)

`profile/route.ts`	Get / save Learning Setup
`profile/interests/route.ts`	Update favourite categories
`profile/target/route.ts`	Update annual target
`credits/route.ts`	Credit summary and ledger
`credits/export/route.ts`	Credits export (CSV / PDF)
`certificates/route.ts`	Learner's certificates
`certificates/[id]/download/route.ts`	Certificate PDF download
`courses/[id]/feedback/route.ts`	Submit course feedback
`recommendations/route.ts`	Recommended for You
`jobs/reminders/route.ts`	Cron endpoint for target reminders

API routes - admin (src/app/api/admin/learning/)

`categories/[id]/route.ts`	Edit / deactivate a category
`settings/route.ts`	Learning settings
`settings/signature/route.ts`	Signatory signature upload
`certificates/route.ts`	Certificate list
`certificates/[id]/revoke/route.ts`	Revoke certificate
`certificates/[id]/reissue/route.ts`	Reissue certificate
`certificates/[id]/download/route.ts`	Admin certificate download
`credits/route.ts`	Learner progress and manual credit adjustment
`deliveries/route.ts`	Email delivery log
`deliveries/[id]/retry/route.ts`	Retry a failed email
`reminders/route.ts`	Run reminders now
`courses/[id]/feedback/route.ts`	Course feedback responses

Shared code

`src/shared/learning/credits.ts`	IST credit-year and target formulas
`src/lib/email/templates/learning.ts`	Four learning email templates

Practitioner pages (src/app/(portal)/pro/learning/)

`_components/LearningSetup.tsx`	First-time setup: interests + annual target
`_components/TargetSummaryCard.tsx`	Annual learning target card
`_components/FiltersDrawer.tsx`	Filters & Sorting drawer
`_components/RecommendedCourses.tsx`	Horizontal recommendations carousel
`_components/CertificateCard.tsx`	Certificate card
`_components/profile-ui.tsx`	Learning Profile widgets
`profile/page.tsx`	Learning Profile tab
`certificates/page.tsx`	Certificates tab

Shared learning components (src/components/learning/)

`CourseRating.tsx`	Stars, card rating, rating badge with hover breakdown
`CompletionPanel.tsx`	Feedback and certificate panel on the course page
`CertificatePdfDocument.tsx`	Certificate PDF layout
`CreditsPdfDocument.tsx`	Credits report PDF layout

Admin pages (src/app/admin/(app)/learning/)

`_components/FeedbackPanel.tsx`	Course feedback settings and responses
`_components/SettingsSections.tsx`	Learning settings sections
`settings/page.tsx`	Learning settings page

Public page

`src/app/verify/certificate/[number]/page.tsx`	Public certificate verification page

Tests

`__tests__/unit/learning-credits.test.ts`	Credit-year and target formula tests
`__tests__/unit/learning-ratings-certificate-email.test.ts`	Rating aggregation and certificate-email attachment tests

Edited

27 files

Backend

`src/backend/repo/learning.repo.ts`	Newest/oldest sort, credit columns, category-name search
`src/backend/repo/email.repo.ts`	Send email and report success/failure
`src/backend/service/learning.service.ts`	My Learning = in progress only; recommendations, feedback, certificate issue, ratings
`src/backend/service/learning-admin.service.ts`	Course categories, credits and feedback settings; new-course alerts on publish
`src/backend/service/learning-common.ts`	Categories and credits in course summaries
`src/backend/service/learning-moodle-sync.service.ts`	New-course alert after Moodle sync publishes a course
`src/backend/controller/learning.controller.ts`	Handlers for all new endpoints, cron secret check
`src/app/api/admin/learning/categories/route.ts`	Managed category list / create

Shared code and login

`src/shared/learning/types.ts`	New types incl. course rating
`src/shared/api/api-client.ts`	Expired session returns to the same page after login
`src/middleware.ts`	Safe ?next= redirect
`src/app/login/page.tsx`	Honour safe ?next= after login

Practitioner pages (src/app/(portal)/pro/learning/)

`_components/CourseList.tsx`	Page order, toolbar, filter chips, All Courses panel, target card
`_components/CourseCard.tsx`	Card redesign: rating, status pill, interests badge
`_components/LearningTabs.tsx`	Header and tabs (new tabs, violet active state)
`_components/CategoryFilter.tsx`	Dropdown styling
`_lib/api.ts`	Client calls for new endpoints
`courses/[id]/page.tsx`	Completion handlers, rating badge

Shared learning components

`src/components/learning/CoursePlayer.tsx`	Course page header, outline and sections restyled; rating badge
`src/components/learning/content-meta.ts`	Feedback removed from content items (now course-level)

Admin pages (src/app/admin/(app)/learning/)

`_components/CourseDetailsForm.tsx`	Category chips + type-a-new-category, Credits card
`[id]/page.tsx`	Feedback tab
`page.tsx`	Learning settings link
`_lib/api.ts`	Admin client calls for new endpoints

Tests and docs

`__tests__/unit/learning-moodle-sync.test.ts`	Fixture updated for new fields
`__tests__/unit/learning-authorization.test.ts`	Sort cursor test
`docs/YURCORE_LEARNING.md`	Documentation for the new features and settings

Deleted

0 files

No files were deleted. The only removal was a small TargetStrip component added and later taken back out of TargetSummaryCard.tsx in the same session, when the full target card was restored.

Not by this session

5 files

These changed within the last day but are not in this session's edit record. Review them separately before committing.

`src/backend/controller/auth.controller.ts`	Changed in the last day, not in this session's edit record
